

Hello I'm Sueda

I am Sueda İncebacak, 23 years old, working as a project manager. With my education in Management Information Systems and the experience I have gained from various projects, I actively contribute to process management, team coordination, and achieving strategic goals. Driven by my passion for technology and innovation, I focus on leveraging my skills to add value to companies and their projects.

My Skills

Agile Project Management
Ability to deliver projects on time and within budget using Scrum and Kanban methodologies.

Risk Management
Ability to analyze, prioritize and develop effective solutions to project risks.

Team Leadership
Ability to motivate teams consisting of different disciplines, ensure cooperation and achieve goals.

My Projects

E-Commerce Platform Development Project:

I took on the design and development project of a local brand's e-commerce platform, creating a project plan, coordinating with the software team, and managing budget and time. As a result, the platform was completed in 3 months, resulting in a 40% increase in the business's online sales.

Digital Transformation Project:

I undertook the requirements analysis, team communication and supplier selection in the ERP system integration project to digitalize the manual processes of a medium-sized company. The project, which was completed in 6 months, increased the operational efficiency of the company by 30%.

Mobile Application Development Project:

I took on the management of user needs determination, UI/UX design and testing processes in the design and launch of a financial management application aimed at a young audience. High user satisfaction was achieved by receiving 10,000 downloads in 2 months after the launch.
